Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Filipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellery or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law -- refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter -- child of the son or daughter of the head.
5. Other relative -- a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others -- any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single -- If never been married.
- b. Married -- Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed -- A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated -- If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced -- If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown -- If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accessoria, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

Bulacan: A Brief Analysis

Bulacan lies diagonally across the Central Luzon Plains, bounded by the provinces of Aurora and Quezon on the east, Pampanga on the west, Nueva Ecija on the north, Metro Manila and Rizal on the south and southeast, and Manila Bay on the southwest. Half of the province consists of a generally flat terrain spreading to the west and north; the other half, of uplands formed from foothills of the western flank of the Sierra Madre mountains.

Bulacan is rich in historical heritage, foremost among which is the Barasoain Church in Malolos, the seat of the Malolos Congress where the first Philippine Constitution was drafted and ratified.

The availability of infrastructure facilities such as roads, electric power and water have contributed greatly to the development of market-oriented industries in Bulacan. Almost all types of manufacturing industries are feasible in the province as skilled manpower and other urban amenities supportive of the needs of factory workers are available. Among its principal industries are leather tanning, fishing, poultry and piggery and the manufacture of cement and chemicals.

The province is composed of 24 municipalities with Malolos as the capital.

POPULATION

As reported in the 1980 census, Bulacan had 1,096,046 inhabitants of which 547,016 were males and 549,030 were females. The province ranked number 12 among the 73 provinces of the country. Its annual growth rate of 4.03 percent showed a big increase of 21.85 percent since May 1, 1975.

Bulacan has a land area of 2,625.0 square kilometers which is only 0.9 percent of the country's total land area. With the increase in population, its population density moved up from 342.7 in 1975 to 417.5 in 1980, or an increase of approximately 75 persons per square kilometer.

The province is now predominantly urban. A considerable increase of 9.97 percentage points is noted in the proportion of urban dwellers, from 42.73 percent in 1975 to 52.70 percent in 1980. Consequently, the proportion of rural population went down from 57.27 percent in 1975 to 47.30 percent in 1980 or a corresponding decrease of 9.97 percentage points.

A comparative breakdown of the population classified according to urban-rural residence and sex is shown in the following table:

A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,
BULACAN: 1975 AND 1980**

Area Classification and Sex	1980		1975	
	Number	Percent	Number	Percent
Total	<u>1,096,046</u>	<u>100.00</u>	<u>899,529</u>	<u>100.00</u>
Male	547,016	49.91	453,210	50.38
Female	549,030	50.09	446,319	49.62

Male	261,427	23.85	261,270	29.04
Female	257,041	23.45	253,931	28.23

A BRIEF ANALYSIS

The sex ratio (number of males for every 100 females) of the province dropped from 101.54 in 1975 to 99.63 in 1980. The sex ratio was more pronounced in the rural areas (101.71) than in the urban areas (97.81).

The population pyramid for the male and female population tends to follow an expansive profile of the age-sex distribution. A large number of the population are under five years of age. From this age group to the 80 years old and above, the male and female population respectively decrease as their age groups grow older (Table 2).

AGE COMPOSITION

Bulacan still has a high proportion of the younger age group (0–14 years) although it has experienced a decline in 1980. The youth population comprises 40.53 percent of the provincial total, a slight decrease of 1.71 percentage points between 1975 and 1980. On the other hand, the 15–64 age bracket, considered as the productive age group, has made an upward swing. The productive age group increased by 1.20 percentage points to 55.67 percent. The older age group (65 years and over) constitutes a small proportion of the provincial population (3.80%), manifesting a slight increase of 0.51 percentage point within the five-year period.

Below are comparative figures showing the age composition of the population in the last two censal years:

TABLE B – AGE COMPOSITION OF THE POPULATION,
BULACAN: 1975 AND 1980

Age Composition	1980		1975	
	Number	Percent	Number	Percent
Total	<u>1,096,046</u>	<u>100.00</u>	<u>899,529</u>	<u>100.00</u>
0–14 years	444,180	40.53	379,903	42.24
15–64 years	610,199	55.67	490,005	54.47
65 years and over	41,667	3.80	29,621	3.29

The median age of the population is 19 years; that is, half of the population are below 19 years old and the other half, above this age. An increase of 1 year in the median age of the population from 1975 to 1980 (from 18 to 19, respectively) can be noted. This indicates that the population of Bulacan is growing older.

With the increase in the percentage of persons in the productive ages, the dependency ratio abruptly went down from 83.58 in 1975 to 79.62 in 1980. As noted from the preceding table, 44.33 percent of the population belong to the “dependent” population. The urban dependency ratio was markedly lower than the rural ratio, 75.72 for the former and 84.17 for the latter. Of the total urban population, 39.22 percent were below 15 years old; 56.91 percent were in the productive age bracket and only 3.87 percent were 65 years and over. Comparatively, 41.97 percent of the rural residents were 0–14 years of age; 54.30 percent, 15–64 years and 3.73 percent, 65 years and over (Table 3).

A BRIEF ANALYSIS

MARITAL STATUS

Suddenly declining by 4.78 percentage points in 1980, never married persons trailed behind the married which comprised 51.29 percent. Slight increases were noted in the widowed (3.99%), the divorced or separated (0.61%), and the not stated (0.10%) categories.

More than half of the rural and urban population were married, 51.78 percent for the former and 50.86 percent for the latter. Never married persons constituted 43.72 percent of the rural population while their urban counterparts made up 44.26 percent.

Nearly half (45.61%) of the male population 10 years old and over were single, 5.51 percentage points lower than the 1975 proportion. In contrast, the proportion of married males went up from 46.71 percent in 1975 to 51.91 percent in 1980. The proportion of widowed and divorced or separated males slightly rose by 0.14 and 0.11 percentage point, respectively. Among the females, 42.45 percent were never married, following a 4.03 percentage-point decrease from the 1975 proportion. Married females, on the other hand, rose from 47.21 percent in 1975 to 50.69 percent in 1980. Similarly, the widowed and divorced or separated increased by 0.20 and 0.26 percentage point, respectively (Table 4).

HIGHEST GRADE COMPLETED

Persons with an elementary education maintained a marked preponderance over those in the other categories, although the proportion dropped from 65.94 percent in 1975 to 61.30 percent of the total private household population 7 years old and over in 1980. However, those who reached the secondary and college levels increased respectively by 3.25 and 1.73 percentage points. Academic degree holders likewise rose by 1.53 percentage points, accounting for 4.73 percent. The proportion of persons who had no formal schooling went down from 5.35 percent in 1975 to 4.11 percent in 1980. Those who did not state their educational attainment made up 0.42 percent compared to 1.05 percent in the preceding census year.

Of those who had elementary training only 38.76 percent graduated from the sixth or seventh grade. Almost one-third (30.13%) did not go beyond the first to third grade; 19.02 percent attained the fourth grade and 12.09 percent, the fifth grade. Among those with secondary education, 55.61 percent reached anywhere from the first to third year while 44.39 percent graduated from fourth year. Majority of the college undergraduates (82.78%) finished

A BRIEF ANALYSIS

the lower collegiate years (1st-3rd year) while 17.22 percent completed the fourth or higher years (Table 5).

**TABLE D – PRIVATE HOUSEHOLD POPULATION 10 YEARS OLD

**FIG. 3 – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND
OVER BY HIGHEST GRADE COMPLETED, BULACAN: 1980**

A BRIEF ANALYSIS

LITERACY

The literacy rate for the private household population 10 years old and over was 89.28 percent. The males, in general, had a higher literacy rate than the females. Of the males 10 years old and over in private households, 347,589 or 90.33 percent were literate and of the females 350,091 or 88.26 percent were considered literate. In urban as well as in rural areas, males registered higher literacy rates than the females – 92.75 percent against 90.58 percent and 87.62 percent against 85.53 percent, respectively. On the whole, urban literates (91.64%) were higher in proportion than their rural counterparts (86.57%).

A BRIEF ANALYSIS

LANGUAGE OR DIALECT

Tagalog is generally spoken in the province. Of the 196,770 private households, 195,594 or 99.40 percent, speak the dialect. The urban and rural areas are predominated by Tagalog-speaking households, 99.43 percent and 99.37 percent, respectively. Lineyte Samarnon (Waray) is spoken by 0.18 percent; Ilocano, 0.09 percent; Bicol, 0.08 percent and Pampango, 0.06 percent. The remaining 0.19 percent speak one of several other languages and dialects spoken in Bulacan.

GAINFUL OCCUPATION

It should be noted that 1975 data on gainful occupation and industry include Valenzuela, then part of Bulacan. Inasmuch as tabulations on these items are on a provincial level only, it is difficult, if not impossible, to segregate the data for Valenzuela from the provincial total. End users should therefore bear this in mind in evaluating the analysis for these topics.

Gainful workers compose 54.85 percent of the total private household population 15 years old and over while non-gainful workers account for 45.15 percent.

The number of gainful workers increased to 356,425 from the 1975 report of 322,026. Production and related workers, transport equipment operators and laborers retain its top position among the gainful workers, comprising 40.98 percent in 1975 and 40.88 percent

A BRIEF ANALYSIS

in 1980. Agricultural, animal husbandry and forestry workers, fishermen and hunters are next in rank with 25.20 percent. Similarly, sales workers remain third, although declining from 11.40 percent in 1975 to 10.25 percent in 1980. Service workers remain at 7.92 percent, while professional, technical and related workers, at 5.87 percent, slightly increased by 0.70 percentage point. Clerical workers decreased from 5.60 percent to 5.11 percent and administrative, executive and managerial workers, from 1.33 percent to 0.70 percent. However, decreases in the aforementioned proportions of gainful workers may be attributed to the marked increase in the proportion of workers not classifiable by occupation, from 0.88 percent to 4.07 percent (Table 8).

The urban areas turned out a higher proportion of gainful workers (55.69%) compared to the rural areas (53.86%), brought about by a higher proportion of housekeepers in the latter than in the former areas. The urban areas also account for more production and related workers while rural areas, as expected, have more than twice as many agricultural, animal husbandry and forestry workers, fishermen and hunters as their urban counterparts.

Changes in the proportion of workers engaged in various occupations between 1975 and 1980 are reflected in the following table:

**TABLE E — GAINFUL WORKERS 15 YEARS OLD AND OVER BY
MAJOR OCCUPATION GROUP, BULACAN: 1975 AND 1980**

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>356,425</u>	<u>100.00</u>	<u>322,026 *</u>	<u>100.00</u>
Professional, technical and related workers	20,927	5.87	16,648	5.17
Administrative, executive and managerial workers	2,477	0.70	4,284	1.33
Clerical and related workers	18,199	5.11	18,034	5.60
Sales workers	36,518	10.25	36,725	11.40
Service workers	28,244	7.92	25,502	7.92
Agricultural, animal husbandry and forestry workers, fishermen and hunters	89,822	25.20	86,037	26.72
Production and related workers, transport equipment operators and laborers	145,723	40.88	131,960	40.98
Workers not classifiable by occupation	14,515	4.07	2,836	0.88

*Includes Valenzuela, now part of the National Capital Region (Metropolitan Manila)

A BRIEF ANALYSIS

INDUSTRY

Agriculture, fishery and forestry, the dominant industry group in Bulacan, provide means of livelihood to 29.41 percent of the total gainful workers 15 years old and over. Majority of the 104,833 workers derive their income from agricultural crop production (77.73%) and fishery (14.17%). Manufacturing, the second ranking industry group, employs 21.08 percent of the gainful workers whose principal concentrations are in the manufacture of textile, wearing apparel and leather (59.14%); food, beverages and tobacco (11.53%) and wood and wood products including furniture and fixtures (6.52%). Third in rank is the community, social and personal services group with 15.60 percent. The three leading sources of jobs in this industry group are personal and household services (48.07%), education services (18.74%), and public administration and defense (15.01%). Transportation, storage and communication contribute 9.80 percent; wholesale and retail trade, 9.65 percent; construction, 8.86 percent and financing, insurance, real estate and business services, 3.09 percent. Electricity, gas and water contributes less than one percent (0.91%); mining and quarrying, only 0.68 percent and activities not adequately defined, 0.92 percent (Table 9).

MIGRATION

Out of 922,467 persons 5 years old and over in private households, 92.83 percent were residents of the same municipality where they had lived on May 1, 1975. Of the 7.17 percent who then had a different place of residence, 1.55 percent came from another municipality within their home province; 5.41 percent moved across provincial boundaries and only a

A BRIEF ANALYSIS

small percentage migrated from foreign countries (0.21%). In all the three migratory movements, there were more females than males – larger by 0.13 percentage point in inter-municipality migration within the same province and by 0.29 percentage point among migrants from other provinces. Among *former residents* of foreign lands, the females outnumbered the males by 185 (Table 10).

TYPE OF BUILDING

Majority (91.35%) of the 196,770 households of Bulacan occupy single houses. The rest live in duplex (2.12%); apartment, accesoria, condominium or row house (3.25%); improvised structures such as barong-barong (2.72%); commercial, industrial or agricultural buildings (0.47%); other housing unit such as natural shelter or boat (0.06%); institutional buildings like hospital, convent, school dormitory, etc. (0.02%) and other collective living quarters (0.01%).

More than half (52.03%) of the single-house occupants are in the urban areas while 47.97 percent are in the rural areas. Likewise, majority of duplex (62.93%) and apartment, accesoria or condominium residents (83.68%) are located in urban areas compared to 37.07 percent and 16.32 percent, respectively, of the households in rural areas. On the other hand, a higher proportion of the households occupying improvised structures are in the rural (54.14%) than in the urban areas (45.86%). (See Table 1.)

The succeeding table shows the number of households occupying different types of building^s as of 1980:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, BULACAN: 1980**

Type of Building	1980	
	Number	Percent
Total	<u>196,770</u>	<u>100.00</u>
Single house	179,753	91.35
Duplex	4,165	2.12
Apartment/accesoria/condominium/ row house/etc.	6,389	3.25
Improvised (barong-barong)	5,345	2.72
Commercial/industrial/agricul- tural	922	0.47
Other housing unit: natural shelter, boat, etc.	121	0.06
Hotel, lodging house, dormitory, etc.	6	0.00
Institutional (hospital, convent, school dormitory, etc.)	49	0.02
Other collective living quarters (military camp, etc.)	20	0.01

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

As shown in Table 1, more than four-fifths or 84.65 percent of the 196,770 households own the dwelling units they occupy. The rest of the households are either tenant^s or lessee^s (8.48%), subtenant^s or sublessee^s (0.51%) or rent-free occupant^s (6.36%).

In the rural areas, 90.08 percent are owners of their dwelling units with the remaining 9.92 percent distributed as follows: 3.75 percent, tenant^s or lessee^s; 0.40 percent, subtenants or sublessee^s and 5.77 percent, rent-free occupants. In urban areas, the respective distributions are 79.89 percent, 12.64 percent, 0.59 percent and 6.88 percent.

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Most of the households occupy dwelling units constructed with roofs of galvanized iron/aluminum (79.42%) and 17.76 percent, of cogon or nipa. Households dwelling in units with roofs of tile, concrete, brick or stone and asbestos constitute only 1.13 percent and those in units with roof^s of makeshift or salvaged materials, 1.60 percent. A negligible proportion occupy units with roof^s of other materials such as anahaw (0.09%). Households in dwelling units with roof^s of galvanized iron/aluminum are common in both urban (85.17%) and rural (72.86%) areas, while those with roofs of cogon or nipa are occupied by 12.01 percent and 24.32 percent, respectively.

By type of construction materials of outer walls, 38.63 percent of the households reside in units built with walls of mixed tile, concrete, brick or stone and wood or plywood; 34.55 percent, of wood or plywood; 10.46 percent, of tile, concrete, brick or stone; 6.25 percent, of bamboo or sawali and 4.10 percent, of cogon or nipa. A few households dwell in units with outer walls of galvanized iron or aluminum (3.17%), of makeshift or salvaged materials (2.68%), and of other materials and asbestos (0.16%). Most of the urban (88.81%) and rural (77.75%) households live in units built with walls of tile, concrete, brick, stone, wood or plywood, or a combination of these construction materials. Households residing in units built with walls of bamboo, sawali, cogon or nipa comprise 4.94 percent in the urban areas and 16.51 percent in the rural areas (Table 2).

YEAR BUILT

Less than one-third or 30.74 percent of the total households are occupants of structures built in 1976-1980; 24.33 percent, during 1971-1975; 23.19 percent, 1961-1970 and 11.06 percent, 1951-1960. Only 5.49 percent live in buildings constructed during 1942-1950 and 5.19 percent, before World War II (Table 2).

FLOOR AREA OF DWELLING UNIT

More than two-fifths of the households (44.06%) in Bulacan occupy dwelling units with floor area less than 30 square meters; 30.75 percent dwell in 30-49 square-meter units; 10.91 percent, in 50-69 square-meter units and 6.61 percent, 70-99 square meters. Only 7.67 percent have spacious dwelling units with floor area of 100 square meters and over (Table 3).

TENURE OF OWNER—OCCUPANT WITH RESPECT TO THE LAND

Of the 167,022 households that own their dwelling units, 67.32 percent also own the land where the structures are erected. The rest are distributed as follows: 13.22 percent,

A BRIEF ANALYSIS

lessee or sublessee; 4.86 percent, farm lessee/agricultural tenant of landowner; 7.53 percent, other legal tenure and 7.07 percent, no tenure such as squatters (Table 4).

SOURCE AND USE OF WATER SUPPLY

A greater proportion of the total number of households in the province depend largely on the tubed or piped deep well than on any other source of water supply whether for drinking (44.81%), for kitchen use (45.09%) or for washing clothes (44.18%). A little less than one-third or 33.22 percent obtain drinking water from the faucet, community water system; 17.18 percent, tubed or piped shallow well; 3.68 percent, dug well and 0.68 percent, spring. Only 0.43 percent reported lake, river, stream, etc. as their source of drinking water. Almost the same proportions of households get their supply of water for kitchen use from the same sources: 30.92 percent, faucet, community water system; 18.06 percent, tubed or piped shallow well; 4.77 percent, dug well; 0.59 percent, spring and 0.57 percent, lake, river, stream, etc. For washing clothes 29.39 percent use water from the faucet, community water system; 17.90 percent, tubed or piped shallow well; 4.90 percent, dug well; 0.53 percent, spring and 3.10 percent, lake, river, stream, etc. No household was reported using rain water for drinking, for kitchen use or for washing clothes (Table 6).

KIND OF LIGHTING FACILITIES

Over four-fifths (81.08%) of the households in Bulacan use electricity for lighting. Kerosene is used by 17.94 percent and liquefied petroleum gas, 0.61 percent. Only 0.06 percent use oil and 0.31 percent, other lighting facilities such as candle. Most urban dwellers (88.47%) use electricity for their lighting; 10.67 percent use kerosene; 0.60 percent, liquefied petroleum gas and 0.26 percent, oil and other types. Like their urban counterparts, majority of the rural households (72.66%) depend on electricity; 26.23 percent, kerosene; 0.63 percent, liquefied petroleum gas and 0.48 percent, oil and other types (Table 5).

COOKING FUEL

Wood or charcoal is predominantly used for cooking by Bulacan residents. More than one-half (54.89%) of the total households use wood or charcoal; 18.64 percent use liquefied petroleum gas; 17.07 percent, kerosene; 7.09 percent, electricity and 2.31 percent, other kinds of cooking fuel.

The predominant use of wood or charcoal is observed among 66.98 percent of the total rural households and 44.30 percent of the total urban households. It is also noted that a good number of urban households cook with liquefied petroleum gas (24.68%), kerosene (19.02%) and electricity (9.15%) while only 2.85 percent use other kinds of cooking fuel. Among the rural households 14.85 percent use kerosene; 11.74 percent, liquefied petroleum gas; 4.74 percent, electricity and only 1.69 percent other kinds (Table 8).

TOILET FACILITIES

A little less than two-fifths or 39.16 percent of the households in Bulacan use the water-sealed with sewer or septic tank type of toilet facility. Users of water-sealed with other depository and closed pit (antipolo, etc.) have almost the same proportions, 15.82 and 15.61 percent, respectively. Approximately one out of ten households (10.22%) use open pit and

A BRIEF ANALYSIS

2.42 percent, other types. The rest (16.77%) of the households are still without toilet facilities.

Urban households have better toilet facilities than their rural counterparts. Almost one-half (47.54%) of the urban households use the water-sealed with sewer or septic tank toilet facility; 18.66 percent, water-sealed with other depository; 11.49 percent, closed pit; 5.96 percent, open pit and 2.76 percent, other types (pail system, etc.). Among the rural households, 29.62 percent use water-sealed with sewer or septic tank; 12.59 percent, water-sealed with other depository; 20.31 percent, closed pit; 15.06 percent, open pit and 2.02 percent, other types. Households without toilet facilities constitute 13.59 percent in the urban areas and 20.40 percent in the rural areas (Table 7).

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR /FREEZER

More than three-fourths or 77.20 percent of the households in Bulacan have radios; 38.16 percent own television sets and 22.46 percent, refrigerators or freezers. Of the 104,824 urban households, 77.36 percent own radios; 45.63 percent have television sets and 28.90 percent, refrigerators or freezers. Among the rural households, 77.01 percent have radios; 29.64 percent, television sets and 15.12 percent, refrigerators or freezers (Table 9).

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)

Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
